

# ZING!

Development Strategies

## What we do: Municipal Projects

### City of Commerce City

In response to rapid residential growth within Commerce City's Northern Range, the city commissioned Zing! and Godfrey Press to examine the area's market dynamics and to recommend an economic development plan. The study included residential, retail, commercial and industrial market analyses, as well as suggestions regarding economic development strategies, market positioning and design guidelines.

*"We appreciate Zing's creativity, candor, and curiosity. In a wonderful exchange of information with our staff, Zing learned about our challenges, and then shared targeted and applicable ideas."*

*Patricia Greer, Assistant City Manager  
City of Commerce City*
